Conflict Free Mineral Statement

To our valued customers,

Blue Ring Stencils LLC sets the standard for being environmentally conscience throughout every aspect of our business. In our effort to eliminate trade of "Conflict Minerals" we have partnered with a supplier who also demands our strict, green standards.

Due to the nature of our product and the materials used (Stainless steel and Aluminum), we do not fall under the Conflict Mineral regulations. However, other products such as Solder Paste, Flux and other materials provided by our Sister Companies, we maintain an updated CMRT for those products.

Our Material Suppliers endeavor to conduct all its activities in a manner contributing to the wider goal of sustainable development, taking into consideration any relevant international agreements, principles, objectives, standards and human rights.

Staff at our material supplier locations are highly committed to excellence through:

- Strict compliance with the requirements in its operations and processes to ensure production of highly recognized tin products which guarantee full satisfaction of its clients.
- Prevention of pollution by controlling emissions, effluents and waste generation.
- Control of any safety risks and hazards, taking care of occupational health by preventing injuries and illnesses.
- Efficient and responsible use of natural resources avoiding the supply and treatment of tin bearing materials coming or suspected to come from conflict countries such as the Democratic Republic of Congo.
- Compliance of legal requirements and other requirements.

Our Material supplier strive to achieve a sustainable development of its processes and operations by showing great concern to the preservation of the environment, process quality, safety and occupational health.

If you require any additional information about the sources of our product materials please contact us and we will do our best to provide additional information.

A handwritten signature in black ink, appearing to read "Sven A. Bock", is written over a horizontal line.
